LESSON NAME: Picture captions DURATION: 1 x 60 min AUTHOR: Darina Kocurová

OVERVIEW

Photo captions are an integral part of every newspaper story. Every single photo in newspapers and magazine must have them to tell people something that picture cannot. However easy it may seem, writing proper captions has its rules and it takes a lot of creative thinking. In this lesson we would like to present basic caption writing guidelines to students and practice "photo captioning" on their own photos. This lesson should also encourage discussion and speculation about photos in mass media.

LEARNING OUTCOMES

The students will be able:

- to recognise the importance of photo captions
- to identify the components of a good caption
- to practice creative writing
- to formulate appropriate, complete and informative captions to any pictures they take
- to understand the rules of captions writing
- to use Phonto application
- to add captions to the photos in their smartphones

PREPARATION AND MATERIALS

- print out as many copies of the worksheet with the pictures as there pairs of students in your classroom
- cut out the pictures and the captions and put them in envelopes

Media Education: From passive consumers to active creators 2014-2016

STRUCTURE: • Introduce shortly students to the value of captions. • Divide students into pairs. • Distribute the envelopes with the pictures and captions ellicit from students what they see in the pictures. • Ask students to match the captions to the pictures. • Outcomes Preparation Procedure • Introduce Phonto application to your students. • Optimize to with the final ones. • Introduce Phonto application to your students. • Operation Procedure • App: • Hitp://nwscholasticpress.org/2012/09/30/follow-these-simple techniques-to-write-the-perfect-captions.html http://www.poynter.org/how-tos/visuals/1753/hot-tips-for-v photo-captions/	
 Elicit from students what they see in the pictures. Ask students to match the captions to the pictures. Give each pair a picture (Worksheet 2.) and ask them to caption to it. Ask them to put aside the pictures with a caption they were sentation attached to this lesson. Let them correct their captions after learning the rules. Discuss the changes they had to make by comparing captions with the final ones. Introduce Phonto application to your students. opportunity to share with you other applications they adding text to their pictures. Assign them homework to take a picture of a local complete it with a caption. Publish their pictures in a school magazine.
